Portfolio: jfa.design

## Summary

Brand designer with 10 years across agency and in-house marketing teams in technology and product marketing. I create and apply brand identity, brand guidelines and design systems: establishing the marketing brand identity at Cloudcherry, contributing to Narvar's company-wide rebrand and developing the brand book at Ascendion. My craft is grounded in typography, layout and visual hierarchy, and extends to logo design, print production and packaging. I turn brand guidelines into on-brand work across integrated campaigns, websites, animated banners, social, video, print and event collateral, sales enablement and presentations. I work in Figma and Adobe Creative Cloud (Photoshop, Illustrator, InDesign, After Effects), adapt approved creative across formats and markets, and hand production-ready files to developers and external partners. I collaborate daily with copywriters, strategists, UX and engineering, handle several concurrent projects on North American hours, and use AI-assisted workflows to shorten turnaround on campaign assets.

## Skills

- **Brand identity:** brand identity and design systems, company-wide rebrand, brand book and brand guidelines, brand-guideline adherence, brand compliance audits, templates, cross-market adaptation
- **Brand and visual design:** typography, layout, colour, visual hierarchy, logo design, illustration, infographics
- **Graphic and digital design:** integrated campaigns, websites and landing pages, web and HTML display banners, animated hero banners, social media creative, email templates, print, event and experiential collateral, sales enablement collateral, presentations (PowerPoint)
- **Print and editorial:** print production, packaging, editorial layout in InDesign
- **Art direction and motion:** art direction, creative direction, storyboarding, motion design, video and brand film
- **Tools:** Figma, Adobe Creative Cloud (Photoshop, Illustrator, InDesign, After Effects, Premiere Pro), Framer, Webflow, Sketch, Miro, Canva, PowerPoint, Keynote, Google Slides
- **Collaboration:** UX, copywriters, art directors, strategists, developers; external agency and freelancer management; mentoring junior designers; consolidating stakeholder feedback from marketing, sales and leadership
- **Workflow:** concurrent multi-project delivery, review and feedback consolidation, file handoff, generative image and video tools (Midjourney, Runway, Higgsfield, Seedance), Claude and Claude Code

## Experience

**Senior Brand & Visual Designer / Manager, Global Marketing**
Ascendion | May 2026 – Present

- Produce video and banner creative for a full corporate website redesign across eight primary pages, from storyboarding through motion design and final delivery.
- Apply brand guidelines across the global website, campaigns and client-facing materials, and run brand compliance audits on deliverables for enterprise accounts.
- Direct a cinematic three-scene brand film and an animated hero banner system, setting the composition and art direction rules for the site's visual language.
- Rebuilt the concept-to-execution workflow around generative AI image and video tools, cutting production time on banner and campaign assets.
- Develop the brand book, and direct external design partners and freelancers, reviewing work against brand standards and consolidating feedback from marketing, sales and leadership into clear decisions.

- Work within a matrixed Global Marketing team on North American hours.

**Brand & Visual Designer**
Sahaj Software | Oct 2025 – Dec 2025

- Delivered launch campaign, sales enablement, video, web and social creative across concurrent workstreams while keeping the brand system consistent.
- Applied AI-assisted production workflows to shorten concept-to-delivery timelines.

**Brand Designer**
Narvar | Jun 2024 – Apr 2025

- Key contributor to a company-wide rebrand, translating strategic positioning into campaign and applied visual expression.
- Produced sales enablement film, social campaigns, event creative and web assets for a global retail technology audience.

**Senior Visual Designer (Contract)**
Microsoft | Oct 2023 – Apr 2024

- Created brand and product creative for the Microsoft Designer app, explaining generative AI concepts to a non-technical consumer audience.
- Brought generative AI and prompt engineering into production workflows, an early applied use in product marketing.

**Design Specialist, Global Corporate Marketing**
Thoughtworks | Jan 2019 – Jul 2023

- Designed integrated campaigns across sales enablement, event and experiential collateral, print and social, working with copywriters, strategists and regional marketing leads.
- Led design and art direction for the UK and Australia markets, adapting campaign creative to regional strategy and audience.
- Turned complex technology and consulting propositions into clear creative for enterprise decision-makers.

**Visual Designer**
KRDS (French digital agency) | Sep 2018 – Dec 2018

- Delivered campaign creative for Southeast Asia clients across retail, FMCG and finance.

**Marketing Designer**
Cloudcherry (acquired by Cisco) | Jul 2014 – Aug 2018

- Early team member who established the marketing function's brand identity and design system, then scaled it through the Cisco acquisition.

## Selected Work

Case studies at jfa.design

- **Nile Secure** (self-initiated concept): multi-channel campaign for a cybersecurity NaaS offering aimed at higher education, covering PPC landing pages, HTML display ads, a LinkedIn carousel and a LinkedIn video ad.
- **Narvar**: homepage redesign.
- **Coefficient**: paid social campaign.
- **Epsilon** (self-initiated concept): email template redesign and hackathon branding.
- **Groove Quiz**: interactive music quiz product, combining creative direction with hands-on front-end implementation.

## Education

**B.E. Computer Science Engineering** | Anna University | 2014
